

State of Minnesota

Christopher Roller

(Plaintiff)

vs.

Allina Health Systems

(Defendant)

Judicial District: 4

County: Hennepin

File Number: 05-6530

Cast Type: Civil

Memorandum in opposition to dismissal Affidavit in support of conspiracy

There is a 4yr statute of limitations 541.076(b) for medical malpractice, not the 2 years I previously mentioned. Medical malpractice is for calling me mentally ill without conducting proper tests. And now that I've proven my godly powers are being used and concealed, Allina was completely wrong in calling me mentally ill. Allina incidents fall in this 4 year statute of limitations.

Statute 541.15(b) mentions a 5 year status of limitation for Insanity.

- Insanity - legal incompetence or irresponsibility because of a psychiatric disorder.
- Insanity is what I legally (not really) am, what the psychiatrists are calling me, and another slanderous word, essentially calling me a loser. Not a good status for the presidency. Allina incidents fall in the 5 year statute of limitations.

Statute 541.074 states that there is a 5 year limitation on racketeering

- Racketeering - an illegal or dishonest money-making scheme, involving activities such as bribery, fraud, or intimidation
- For reasons mentioned earlier, there is a conspiracy to keep me down by type 9, to "dishonestly" keep godly money secret from Chris Roller using the help of psychiatric "intimidation". This type of racketeering falls in the 5 year statute of limitations.

I took a Kirlian scan in February of 2002, which measures the aura of the body. It was the latest technology using a computer which scans all 10 fingers. The scan measures the chakra levels. All 7 chakras were about 3 on a scale of 10, except the 6th chakra ([mental chakra](#)) - the 3rd eye, where imagination and reality become one. It was at 10+, off the scale.

In my second caging of 4 with Allina, at New Ulm, the doctor was Darrel Shaffer. In an a totally independent appointment, yet unbelievable coincidence, I saw Dr. Shaffer at Mental Health Solutions in

the western suburbs. He was experimenting with Kirlian and alternative medicine. It was a state of the art Kirlian unit, costing over \$5,000, and completely computerized. He knew I had energy levels off the chart, and said, "That must be what's wrong with you". He would not forward me the computer scan readings (files), nor any prints - not one thing, despite a dozen complaints. This is the conspiracy to keep my godliness secluded.

Respectfully submitted,

Date: _____
