When I saw Chris Roller this morning he asked to talk with me right away. We went into LeAnn's office and talked. He seemed much calmer and more relaxed than he had been last week. He said he felt better, he was on his medication and he had some piece of mind knowing that no one was "Poisoning" him. He told me he went to Sioux Valley hospital for a blood test to provide the piece of mind to know if someone was poisoning him. In talking with the staff at Sioux Valley they felt it important that Chris talk with someone in the Pysch staff. Chris told me he spent the weekend at Sioux Valley he feels better.

In the past I told Chris if there something I could do please let me know. He reminded me of my past statement and said his weekend visit was probably going to cost him \$1000 out of his pocket. He told me the doctor mentioned something about work comp helping on this, but he didn't know what he meant. I told Chris I wasn't sure what MMS could or couldn't do but I would check into it and let him know.
