

**United States District Court
District of Minnesota**

Christopher Roller

(Plaintiff)

vs.

David Copperfield's Disappearing, Inc
(Defendant)

Civil Action No. 07-1182 GNE/JJG

Reply Opposing Dismissal and Sanction

Reply Opposing Dismissal and Sanction

My original claim was for patent infringement, which includes violations of morality in the use of godly powers. Trying to kill me would qualify as immoral and thus an original claim. My "new" claim for federal crimes against me and resulting tort is the same thing and included in the original complaint. If that doesn't work for LaMere, then I now have an amended complaint. My conscience is very nervous. Tell me Copperfield didn't try to end me. Outside the courtroom, people tell me I'm wrong for accusing people of hurting me. I have yet to be told I'm wrong about my accusations under oath.

What's this crap about DC not a party to David Copperfield Disappearing Inc. I assume DC is an employee of the company. Vicarious liability (respondeat superior) makes the defendant liable for any crimes DC committed against Chris Roller. Feel free to use today's date as my motion submission in the reply deadline for the response to my motion. Make the statement and put my mind at ease, "David Copperfield did not try to kill Chris Roller". Otherwise, it's a claim for a relief as a tort for my mental anguish suffered. I'm nuts now because of David Copperfield.

Personal jurisdiction - I allege he tried to kill me in MN. He sent his thugs after me within minutes of the phone call. He has more than enough contacts to qualify for minimum contacts. Of course, a statement like, "David Copperfield did not try to kill Chris Roller" would mean there is no more claim for relief, and I do a magic act and disappear.

CONCLUSION

I oppose the motion to dismiss. I have a pending claim based on the response to my motion for partial summary judgment. I feel David Copperfield tried to kill me. Let the truth be told. I oppose the motion for sanctions. How can God be sanctioned from the forum (courtroom) he made possible.
