(Defendant)

Civil Action No. 07-1296 (JRT/FLN)
NOTICE OF APPEAL

Notice is hereby given that the plaintiff, Christopher Roller, in the above named case, hereby appeal to the United States Court of Appeals for the Eighth Circuit from the final judgment entered in this action on the 27th day of March, 2008.

ISSUES ON APPEAL

I object to everything. I object to being a mentally-ill peon non-lawyer whom the legal system treats as their personal dung heap. I object to being bent over by the judges and lawyers as well as the general population. I object to not getting compensated for the miracles I provide on this planet, like the oath. I'm just a poor peon with no money to afford any lawyer, trying to seek some justice on this planet. I have not received a jury trial in this case, and if this were to happen via another Chris Roller miracle, I would probably win a civil trial stringent to "it likely happened". This is now huge discrimination, conflict of interest, religious discrimination, discrimination against my mental illness, discrimination against a godly entity, discrimination against the poor as my income is unable to provide a

lawyer, a lawyer now needed to commence another lawsuit to protect myself from the attempted murders happening. The evidence needed for a criminal case is too low because the police don't like my new version of affidavit which now provides for the whole truth and nothing but the truth. They need solid evidence cause they don't like to do things legally. So my only legal remedy is now the court system, which Judge Noel, who has tried to kill me in the courtroom, creating huge conflict of interest, has placed a sanction on me to prevent me from seeking legal remedy without a lawyer. And of course, no lawyer will touch me unless I give them \$10s or thousands I don't have. That means the MN Federal court and State of MN leaves me no legal remedies for the attempted murders occurring. I'm sure, under the constitution, everybody has a means to ask for legal remedies, whether they can afford it or not, police or court. I have neither. I do believe that is illegal. So we need to fix this. I want all the defendants back for the hit attempts, no prejudice, I want my class-action back against the millions trying to kill me, and I want the sanction removed so that I have legal rights in this country.

Respectfully submitted,
