RECOMMENDATION**

**OBJECTION TO REPORT & RECOMMENDATION**

I guess it's hard to believe a global contract can't be decided anywhere in the U.S., but I understand the final decision. I understand Judge Noel's reasoning for minimum contacts, but how about this... Defense did not respond to my motion for partial summary judgment when I accused Randi of trying to kill me. My motion is unchallenged/undisputed. If Randi did try to kill me (undisputed means yes), he had at least 10 contacts within 10 minutes of me with which to kill me. My argument is that James Randi has many contacts in MN. I wouldn't doubt his Outlook Contacts is 10% full of Minnesotans, most waiting in the shadows, within 15 minutes of me, for the opportunity to end me. I am James Randi's number one enemy, and his biggest nightmare now that only the truth will come out in the courtroom. Especially the truth about this supernatural stuff. Open up discovery and we'll find out the truth.

As for the sanctioning such that I need a lawyer in the future. I was kidding about suing ten percent of the United States. Judge Noel believes that, but doesn't believe me when I show him the connection between James Randi, the hit on me, and the resulting Red Lake shooting incident. I would love to have a lawyer help me out. There's a problem though... I can't find a lawyer that appreciates my supernatural patent. I've tried nation-wide. No lawyer will come near me. The subject matter (godly crap) is too uncomfortable evidently. Either that, or every lawyer in town is a devil's (western MN) advocate (a demon) who can't stand helping out God. Or perhaps most feel guilty from trying to kill Chris Roller. One lawyer said it would be "impossible" to find a lawyer, even if I could shell out \$thousands to afford one. If I have to get a lawyer to attend any more federal cases, and they will no longer touch me, it will essentially mean I cannot defend my patent when/if it issues. Please don't sanction me. There has to be another solution. Perhaps like a public defendant, maybe the judge can find me a public plaintiff. Assign me a lawyer please. I oppose the sanction to find a lawyer who will represent me.

## CONCLUSION

Somebody cut God a break! Nobody is compensating me for the truth under oath - my magic trick. No one is tithing me. No lawyer will touch me. I'm doing the best I can to bring justice to the world. I propose, from recent findings/pleadings, that James Randi has contacts within 5 miles of me for which to end me- enough to qualify for minimum contacts. I oppose the motion to dismiss. And I oppose the motion for sanction in as much as I need to "find" a lawyer.

Respectfully submitted,
