The James Randi Educational Foundation, Inc. (JREF)
c/o Magician James Randi
(Defendant)

Affidavit in Support of Motion of Joinder

Affidavit in Support of Motion of Joinder

I sure would like to know I'm safe in this world. I had brought suit against GEMS and Bosley, but I dismissed it when they provide the attached emails denying any attempts on my life. I believed it because, for a while, lawyers were locked under oath with me like in the movie Liar Liar. But evidentially that ended, and they were lying because I asked for a sworn affidavit from GEMS and Bosley with the same statement, and they refuse to give me a sworn affidavit identical to the emails. The reason they don't provide it - it would be a lie under oath. But they're making up excuses and runarounds to avoid the ugly truth. GEMS essentially says, "Roller, I don't need to worry about your safety because you're not allowed to sue anymore".

CONCLUSION

Companies and people do not want to submit a sworn affidavit unless forced via court subpoena, lawsuit, etc. I need to reopen the cases with GEMS and Bosley because they did try to kill me.

Respectfully submitted,
