(Defendant)

Case Statement by Plaintiff

There has been little to no discover evidence uncovered thus far in this case.

1. The defendants have been properly served the complaint via publication. In fact, every piece of the case is served via public notice at www.BendMover.com. And it is actually advertised and propagated via software File SyncForce. Publication of this entire case has been occurring since Oct2009, over 3 months. This is hopes of, public support, even outcry. Richard Allyn even reported related correspondence to the Judge Burke's clerk on 14Jan2010. I'm sure the defendants are aware of this service, as they may be getting phone calls from concerned citizens.
2. Estimated trial time: 1 day.
3. Jury is requested.
4. Concise statement of the case including facts Plaintiff intends to prove and a legal basis for claims:

As stated in Complaint and Amended Complaint, the plaintiff will offer accusations with

the promise that these accusations are facts under penalty of perjury. Christopher Roller has asked for statements under oath negating these charges and have not seen them yet, and will continue to abide by these standards in the trial. It will be a very short trial and simple trial, because if the defense cannot make statements negating Chris Roller's accusations of facts under penalty of perjury, then under the civil laws of justice, in which preponderance of the evidence is required, a guilty verdict will be decreed by the jury. Chris Roller is suing for torts, to civilly correct what has been done criminally.

There will be no criminal charges pressed by Chris Roller based on the findings/results of this case. Fees (sue amounts) will be based as follows for each defendant.

- \$trillion for trying to kill Chris Roller, who is implementer of the oath, preventing people from lying under oath.
 - \$billion for molesting Chris Roller's child.
 - \$5 million for illegally discrimination against Chris Roller, and conspiring with Judge Baris to dismiss a conciliation court case.
5. List the names and addresses of witnesses known to either party that either party may call. Indicate the party who expects to call the witness and whether the party intends to qualify that witness as an expert.
